CSS

Cascading Stylesheet

type {}

Syntax

type/name { property : value; }

Tags

`<h1 class='blue'>Hello World</h1>`

Note: Assumes we have already declared what class='blue' is in CSS

Syntax

.blue { color : blue; }

Result

Hello World

Structure

```
<html>
        <head>
                <title>
                    My Portfolio
                </title>
        </head>
        <body>
                <h1>
                    Welcome to my portfolio!
                </h1>
                <p>
                    I am a designer
                </p>
        </body>
</html>
```
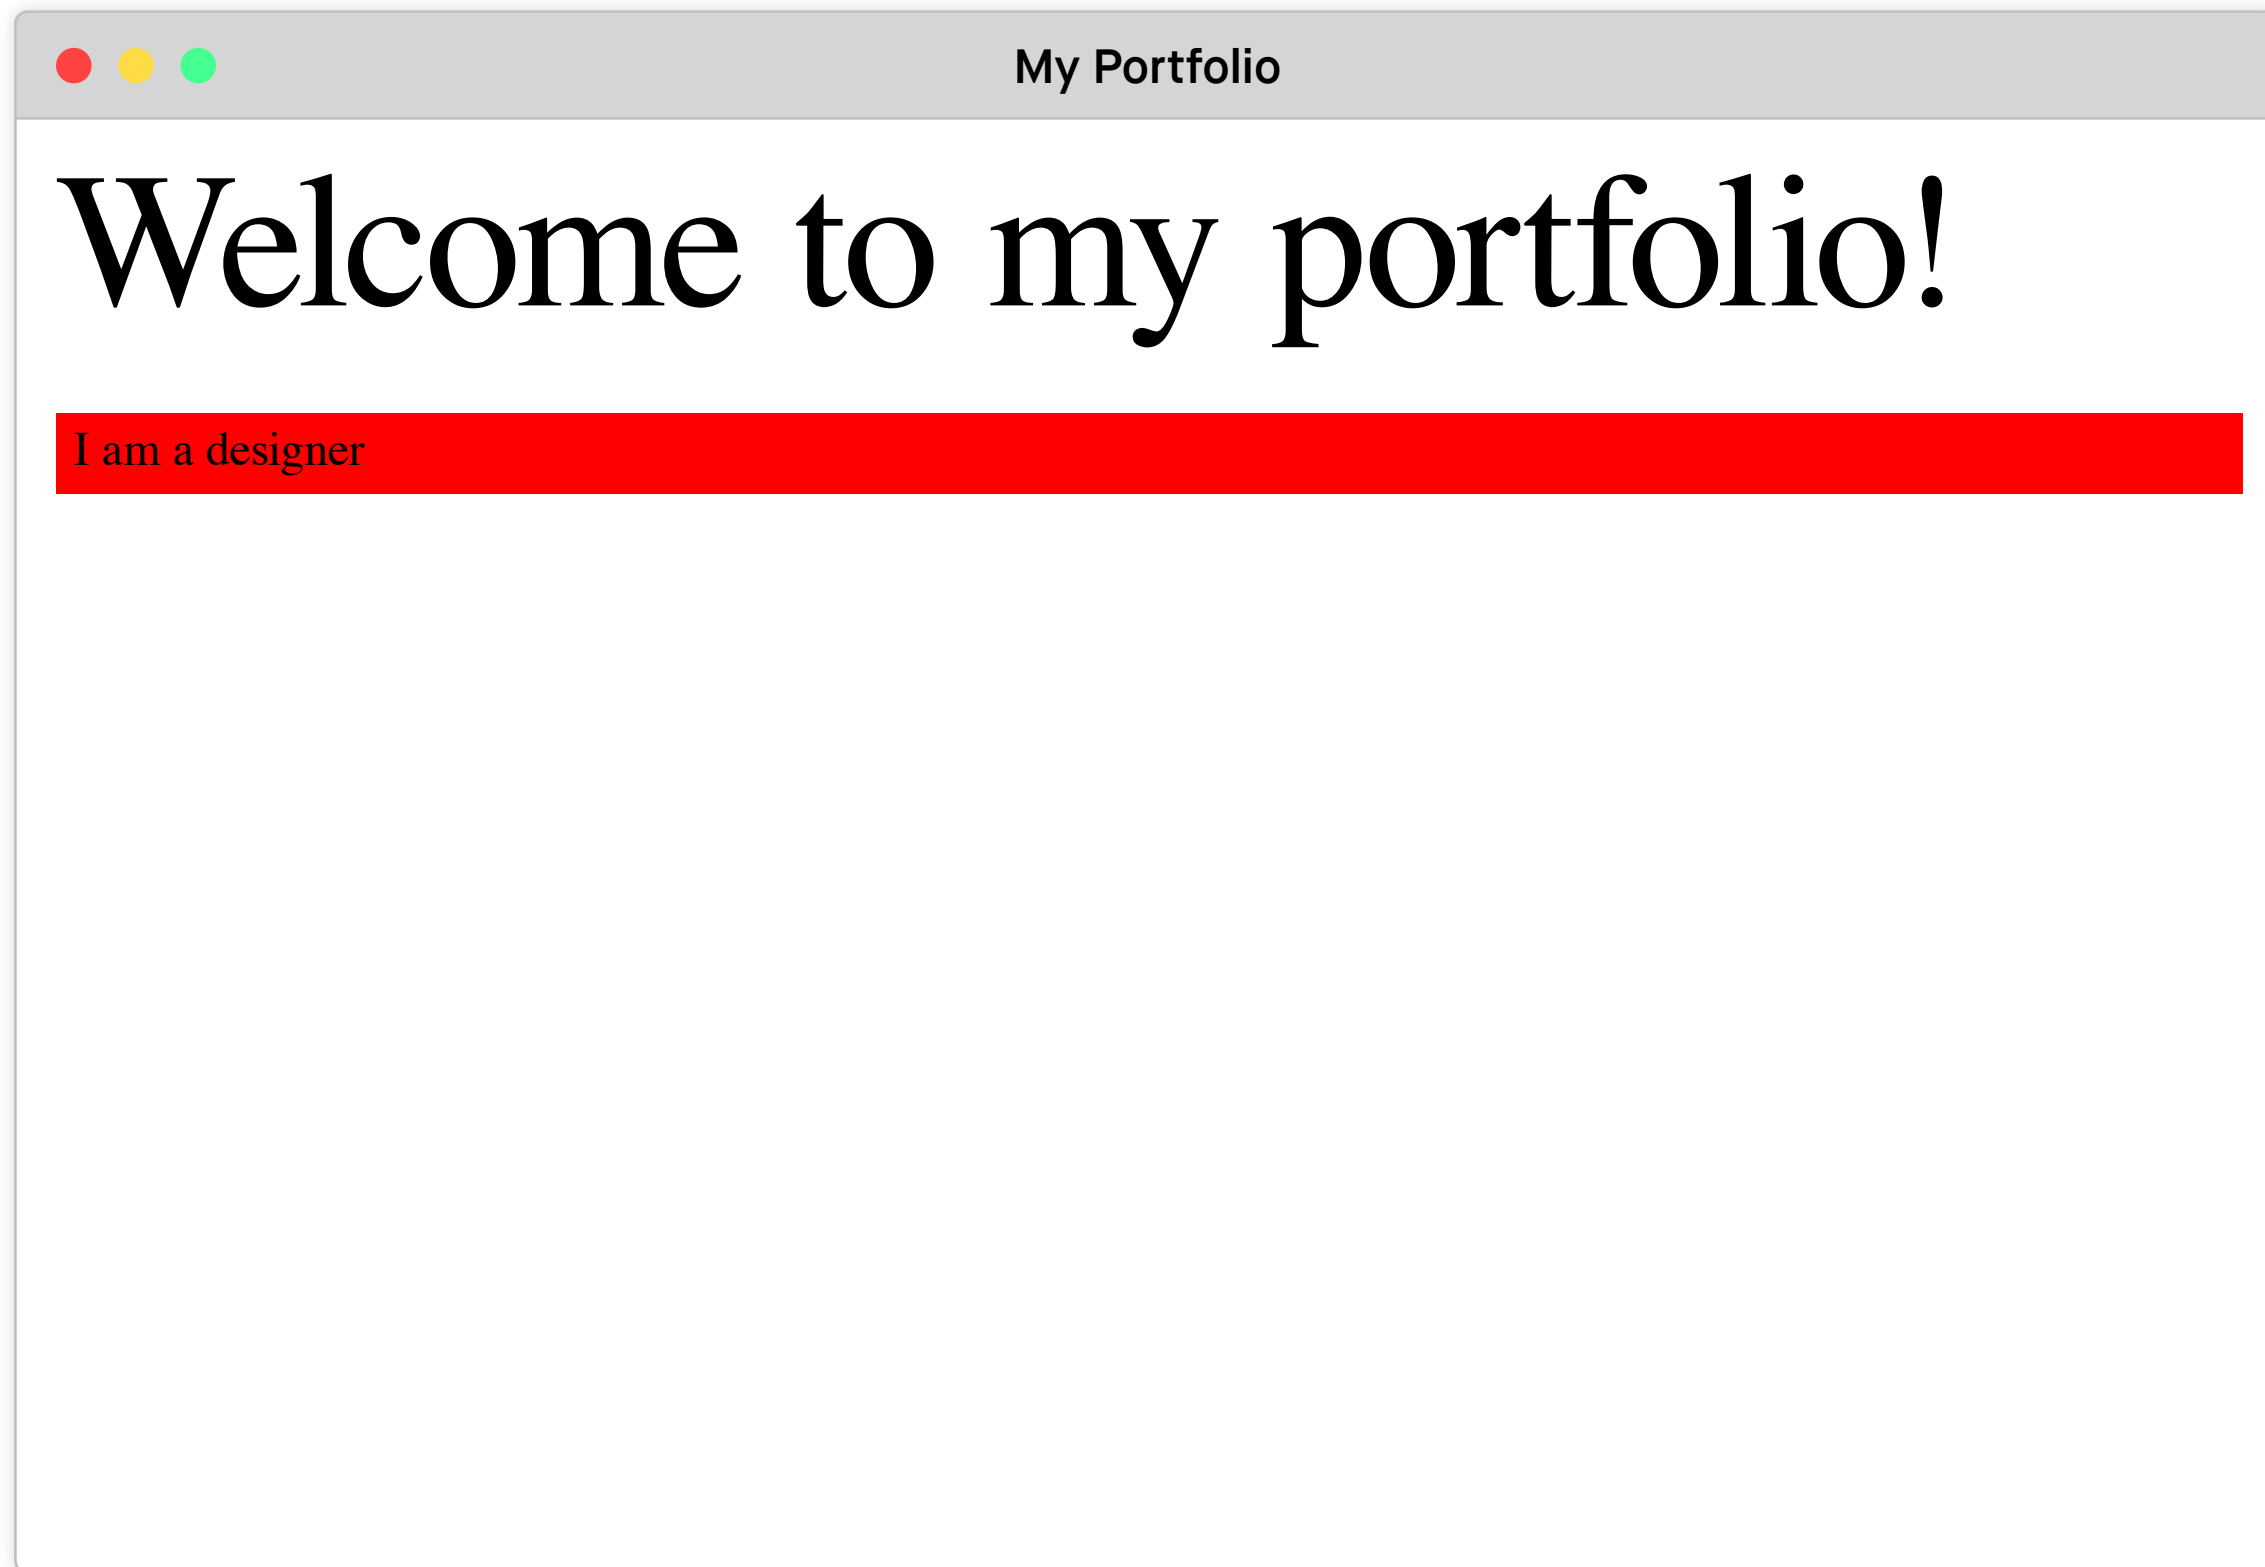

Syntax

`p { background : red; }`

Result

Syntax

```css
p {
    background : red;
    color : white;
}
```

Result

Welcome to my portfolio!

I am a designer
